# Professional Overview

I am a Cybersecurity Professional, Entrepreneur, and Technology Advocate with expertise in security awareness, digital literacy, and practical defense strategies. My journey is shaped by hands-on projects, collaborations with global companies, and impactful initiatives aimed at empowering individuals, businesses, and institutions to stay resilient in the face of evolving cyber threats.

I have founded NEXUSCIPHERGUARD India, a firm specializing in cybersecurity education, awareness, and security solutions, while also pursuing entrepreneurial ventures and international leadership roles.

# About Me,

I'm Pangerkumzuk Longkumer, a cybersecurity professional and entrepreneur on a mission to create a safer digital world. I founded NEXUSCIPHERGUARD India, blending awareness, education, and hands-on defense. My experience ranges from freelance web development and collaborating with Meta on global safety initiatives to building localized engagement systems for Moonton Games.

I also co-own LongSong Rentals and have served as Deputy Ambassador of International Diplomats, representing youth voices globally. I believe cybersecurity starts with people, not machines, and my goal is to empower, educate, and protect against the unseen battles of the digital age.

# Professional Experience

01

## FOUNDER, NEXUSCIPHERGUARD INDIA (2023 – PRESENT)

- Established a cybersecurity firm dedicated to seminars, workshops, and solutions in penetration testing, vulnerability assessments, and domain/website services.
- Led impactful cybersecurity awareness programs for academic institutions, para-military forces, and business sectors.
- Developed training models focusing on phishing, social engineering, and modern cyber threats.
- Impact: Enhanced digital literacy for 3,000+ students, professionals, and officers through workshops and seminars.

02

## CONTRACTUAL COLLABORATOR, META (FACEBOOK & INSTAGRAM) (2020 – 2021)

- Worked on projects involving platform safety, community policy enforcement, and digital ecosystem improvements.
- Provided insights on user experience, security features, and responsible digital engagement.
- Collaborated with cross-functional teams to improve integrity and trust across Meta platforms.
- Impact: Contributed to strengthening platform integrity and online safety for users globally.

**03**

## **GAME LOCALIZATION SPECIALIST, MOONTON GAMES (MOBILE LEGENDS: BANG BANG) (2018 – 2020)**

- Localized in-game content for Indian and Southeast Asian audiences, ensuring cultural relevance and language accuracy.
- Managed server communities and supported game engagement activities.
- Impact: Strengthened game adoption in regional markets, improving user satisfaction and player retention.

**04**

## **CO-OWNER, LONGSONG RENTALS (2022 – PRESENT)**

- Co-managing a rental business offering services and resources for community and organizational events.
- Streamlined operations and created reliable service models for local customers.
- Impact: Built a sustainable venture contributing to community engagement and small-business development.

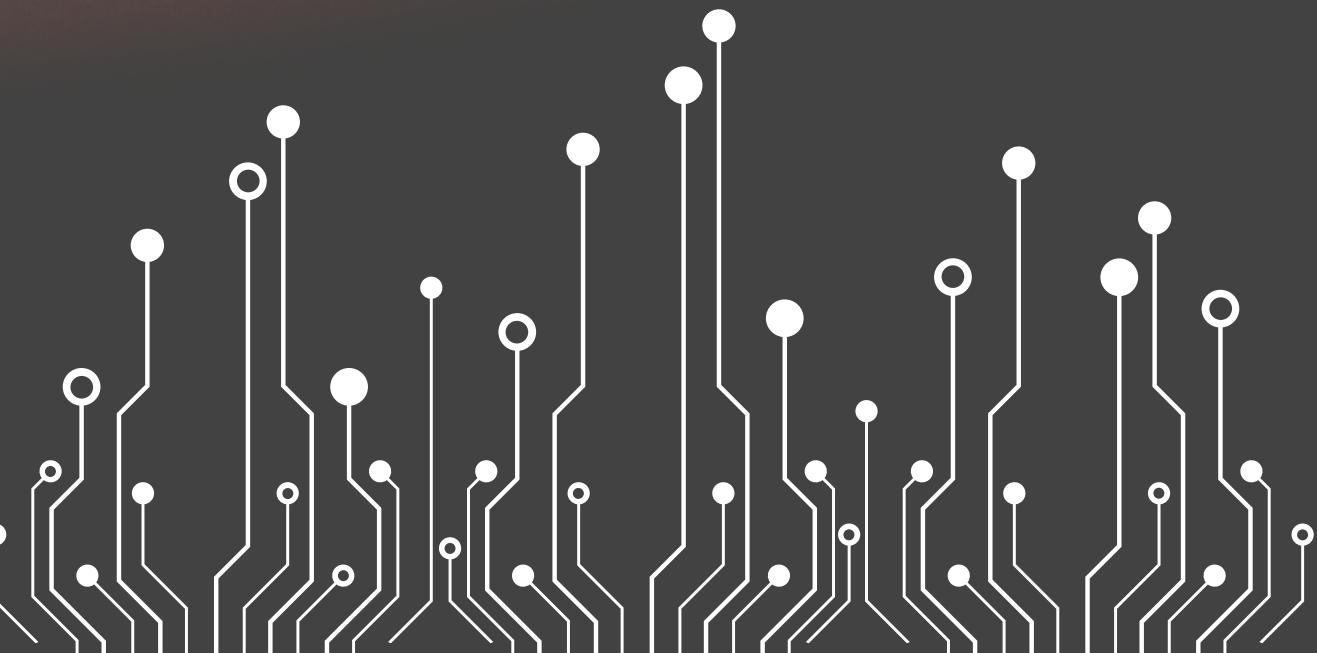

**05**

## **DEPUTY AMBASSADOR, INTERNATIONAL DIPLOMATS (2024 – 2025)**

- Served in a leadership capacity to foster diplomatic dialogue and youth engagement on global issues.
- Participated in policy discussions, cultural exchange programs, and awareness campaigns.
- Impact: Represented youth perspectives in global forums, contributing to cross-border collaboration and dialogue.

# **Key Insights and Thoughts**

- Cybersecurity is not just about technology but about people. Real change happens when awareness meets action.
- Digital literacy in underrepresented regions is a pressing need; bridging this gap can uplift economies and safeguard communities.
- Entrepreneurship and diplomacy share a common principle: trust is the currency of influence.
- Every role I have taken, from global corporations to grassroots awareness, has reaffirmed the importance of building resilient systems that protect and empower individuals.

# Education & Certifications

- CERTIFIED IN CYBERSECURITY, ETHICAL HACKING, PENETRATION TESTING, AND AI FUNDAMENTALS.
- TRAINING COMPLETED FROM CISCO, MICROSOFT, COMPTIA+, LINKEDIN, AND CYBRARY.

# Projects

## **NEXUSCIPHERGUARD INDIA -**

Founder of a cybersecurity firm specializing in security awareness, workshops, and consultancy for institutions and organizations.

Services include penetration testing, vulnerability assessment, website security audits, and training.

## Cybersecurity Workshops & Seminars

Conducted multiple awareness programs under CipherGuard for institutions like:

Science College, Jotsoma (NCC CATC-149)

St. Joseph's College (Autonomous), Jakhama Topics included Phishing, Social Engineering, and Cyber Hygiene.

## Cybercrime & Cybersecurity in Nagaland

Led a market analysis and case study on how cyber illiteracy affects small businesses and vendors, focusing on awareness and digital resilience.

## Cybersecurity Awareness Month Campaigns

Organized annual online campaigns promoting safe online practices through social media, focusing on phishing, password safety, and data privacy.

## Cybersecurity Awareness Month Campaigns'

Organized annual online campaigns promoting safe online practices through social media, focusing on phishing, password safety, and data privacy.

## URL Analyzer Prototype

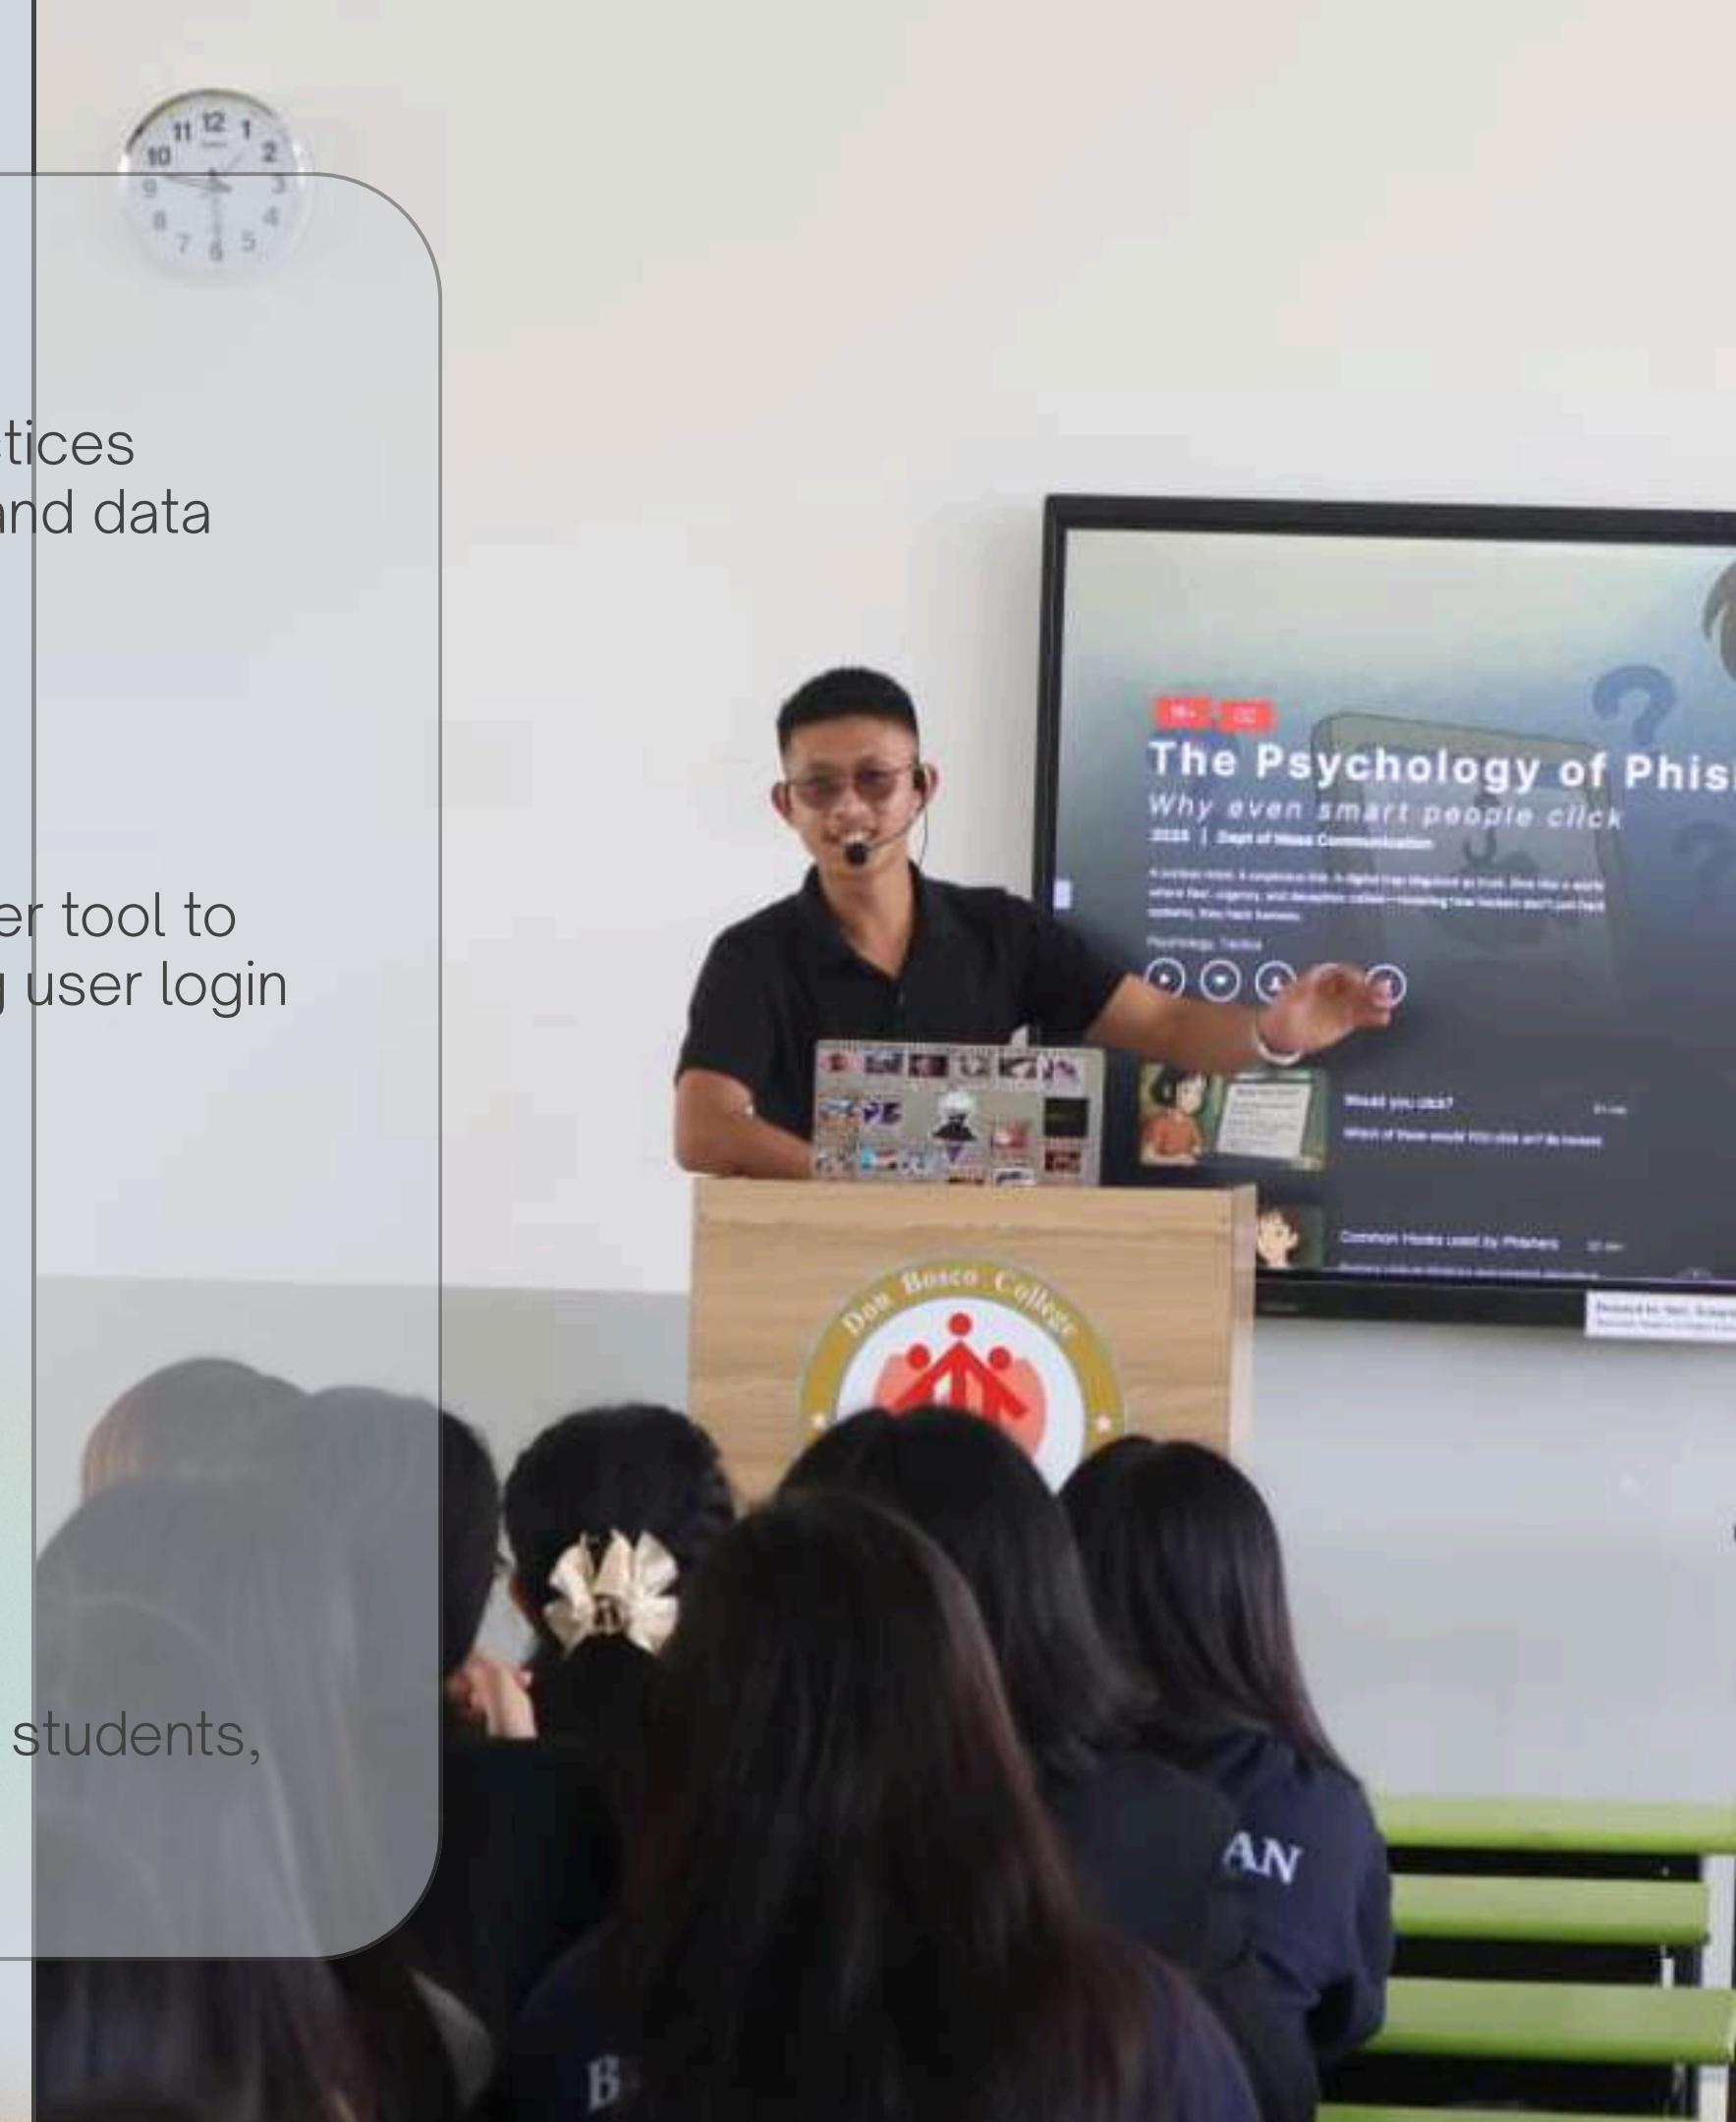

Designed and developed a working prototype for a URL Analyzer tool to detect phishing and malicious links. Future plans include adding user login systems, subscription tiers, and threat reports.

## Advisory Role at MMB Cyber School

Serving as one of the three Advisory Panel Members, providing consultation on cybersecurity education and awareness.

## Guest Lectures & Digital Literacy Programs

Conducted cybersecurity lectures and awareness sessions for students, startups, and para-military personnel.

## AI in Cyber Defense Research

Exploring applications of artificial intelligence in identifying and mitigating phishing patterns and social engineering attacks.

## Website Security Migration Project

Migrating personal and client websites from Google Sites to WordPress with enhanced encryption and domain protection using Cloudflare DNS.
